THEODORE R. WILSON - EDITOR

## BY THE EDITOR

When this publication effort was first announced, I began to receive comments and criticisms such as would be expected by any publisher. Some objected to the use of the word NEGRO, and others preferred AFRO-AMERICAN as the proper name for blacks. Some felt the word COLORED was better.

Some wondered why such a DIRECTORY should be published since we have already lost our identity by integration. These and other objections will be answered in a future issue of THE CHRISTIAN HOME, as time nor space will permit here at this time. You could hardly believe that some preferred their names not to appear in this publication along with members of other religious groups. However I have exercised jurisdiction in the matter since no argument was made with the Ohio Bell Telephone Co. when listing their names with all other groups, mentioned in this directory also. None of them inquired of the telephone Company what it planned to do with the proceeds. Some was so concerned about what would be done with proceeds from this publication.

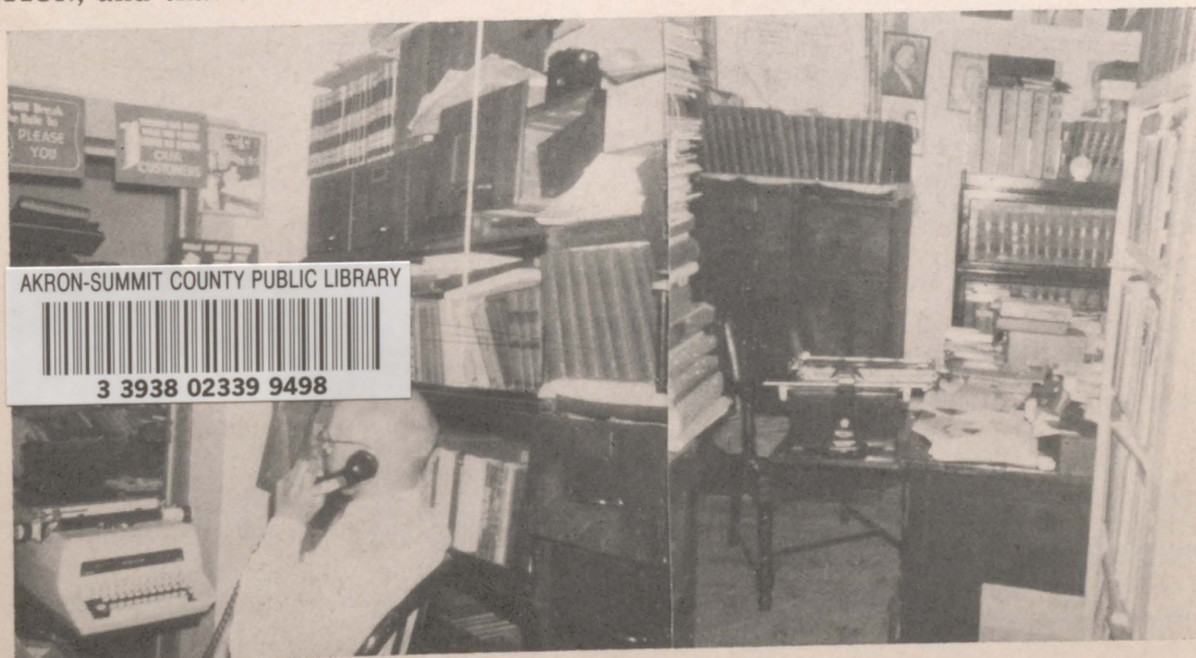

In brief however, I MUST FIRST BE CONVINCED THAT MOST NEGROES REALLY WANT INTEGRATION, and that the white man has de-

cided to absorb the black man. I must be convinced that negroes have less prejudice against white men, than white men have against black men. Try some way some how to convince me that the unity of religions is a desire of the so-called Christian world.

Now isn't it true that the black man is searching for his identity through our school text books? He wants the world to know the black man was instrumental in helping to make history.

I must admit we have made some progress here during the past 52 years I have lived in Akron. Our population has greatly increased since 1917. We now have a long list of part-time (or would be) preachers, and a large list of churches stands out above all else. However the church could help a lot more I am sure if the influence could be strengthened with more concern about the human welfare. If the church could evaluate its present program to find out if it has not become the world's most begging organization, and with little to give except some good advice. The pulpit could teach our people race patronage and pride, and a UNITY so badly needed. But it seems

This list of Colleges and Universities for negroes below has been compiled from several sources through the years. I have had the opportunity to visit many of them in all parts of the country. I have been in direct contact with all of them in their use as a list, and referrals. I have been unable to know when all of these schools were organized. However many of them are marked when they were organized, and by what group—mostly by some religious denomination. Possibly more than 95% of such schools are southern. ### BY THE EDITOR

(From page 1)

that we do not have time for fear some of the worshippers may leave the church before we can get what money they brought with them.

We need courageous men like Attorney Edwin Parms representing the N.A.A.C.P. We need more men like Vernon Odom with an administration in social affairs and youth activity. We need more men like Attorney W. Howard Fort with the planning commission of the city of Akron.

We need more men like Wesley Mitchell who has courageously established a General Insurance Agency to protect the whole of our investments, etc. We need more men like Grady Driskill who has established a commendable contracting firm employing others. We need more men like The Honorable Judge Joseph Roulhac, qualified and chosen to administer justice. We need more men like Ed Davis in City Council representing the general welfare of the people. We need the COMMUNITY ACTION COUNCIL, which should not really be looked upon as an auxiliary of the WAR DEPARTMENT, nor the U.S. TREASURY, but should be considered a funded organization commissioned to attend the welfare of the poorer people, and to especially upgrade the negro most effected. This organization can do a great good, and the proper effort should be put forth and have that continuity of purpose and action. Better housing—our school dropouts rescued—better employment for the less fortunate—protection of health for our babies—and more regard and concern for the aging. We just need more and better prepared business men and women. Be most assured that we will leave our footprints on the sand of time, and the generations following will know for sure who made the track. I have listed 100 Colleges and Universities for Negroes in this publication, which I hope will benefit our young. 95% of these are southern where the black man was forced by circumstance to do something for himself. Many of these are highly rated. I have also listed 159 negro newspapers and magazines to inspire someone with vision and courage to come to the reassurance of Akron, a town called the CITY OF OPPORTUNITY, without a negro publication to represent its people with publication service. Many of these publications are fully independent, and supported by towns much smaller than Akron, a large industrial center. Many of these towns have more than one publication. Many of them also have their own Banking institutions. This in itself should let us know race patronage and pride is badly needed here, and for this reason I am depositing with the librarian of every negro College and University in the United States one copy of this publication. Could I do more? What can you do?
